

"When people have good jobs, good wages,
and are taxed fairly, both our government
and our economy work."

Walter Capps

Walter Capps is running for Congress to give the people of
the 22nd Congressional District the choice for a real
representative in Washington, instead of just another politician.

FOR CONGRESS

Republicans for Capps

An Open Letter to the Voters of the 22nd Congressional District

As Republicans, we support Walter Capps because he will bring common sense and an independent voice to Washington, putting the interests of the Central Coast ahead of career concerns or partisan politics.

Capps is fiscally conservative.

He is a political moderate who knows that government cannot work well unless the economy is strong. His support for developing industries and defense conversion will promote economic strength and sustainable growth in our community.

Capps is pro-choice.

Unlike his opponent, Andrea Seastrand, who is a self-proclaimed "30 year member of the pro-life movement," Capps will fight to ensure that government does not interfere with a woman's legal right to reproductive choice.

Capps supports limited, effective government.

He believes in efficient government that does not burden people or business with layers of unnecessary regulation. He will not engage in political grandstanding, but will provide support and resources to local leaders, law enforcement officers, and other people who know how to get things done.

Capps is not a career politician.

He believes in the Jeffersonian idea of members of Congress who leave their professions temporarily to serve in public office, then return home. Andrea Seastrand "has sounded off against politicians who stay in office and don't accomplish anything, yet tally up her career and she could be describing herself." *San Luis Obispo County Telegram-Tribune* 10/20/94.

Walter Capps will serve with integrity and ability. He will be a representative, not just another politician, and he is a candidate that Republicans can be proud to support.

Clergy for Capps

**"A politician thinks of the next election;
a leader of the next generation"**

We are clergy from many faiths. We are from different political parties. Some of us lead congregations, but herein we speak from our own convictions as we support **Walter Capps for Congress.**

- We believe Walter Capps represents what is good and hopeful about America.
- We believe Walter Capps is a man whose depth of spirit and profound caring are at the core of his decision to seek political office.
- We believe that Walter Capps is a man grounded in the Judeo-Christian tradition and its universal values of compassion and justice. In his family life and public life he has demonstrated religious depth and moral character.
- We believe that Walter Capps' view of the world is not the vain reflection of narrow special and self interest but rather the vision and courage of those who speak out for that which is in the best interest of others.

Once in a while a genuine leader emerges from among us, offering his gifts of intelligence, character, experience, and leadership to serve the public good. With gratitude for this opportunity to affirm such a leader, we support **Walter Capps for Congress.**
